PRIYANSHU PAL

Software Engineer

PROFILE

Graduate Engineer Trainee at Sopra Steria and Full Stack Developer with 6 months of internship experience. Possess strong problem-solving skills and hands-on expertise in designing, developing, and optimizing full-stack and backend enterprise systems.

SKILLS

Coding Languages
Java, Python, C, TypeScript, Object-Oriented Programming (OOP)
Web & Mobile Development
React JS, React Native
Database
SQL, MySQL
Backend Technologies
Spring Framework, Hibernate
Tools & Platforms
Git, GitHub, VS Code, IntelliJ IDEA

EDUCATION

G.L. Bajaj Institute of Technology and Management, Greater Noida
B.Tech. in Computer Science & Engineering | 2021-2025
- Scored 83% marks.

S.D. Public School, MZN
Senior Secondary School | 2021
- Scored 87.6% marks (PCM).

S.D. Public School, MZN
High School | 2019
- Scored 78.8% marks.

ACHIEVEMENTS

- GATE 2026 (Computer Science) Qualified – Score: 411
- Solved 800+ Problems on Leetcode.
- Runner-up in Olympiad 2019.

PROFESSIONAL EXPERIENCE

Graduate Engineer Trainee
Sopra Steria (Apr 26 - Current)
- Built web applications using React JS.
- Developed backend APIs with Python.
- Optimized schemas using MySQL databases.
- Collaborated within Agile development sprints.

Software Developer Intern
Bharti Airtel Ltd. (Apr 2025 - Aug 2025)
- Worked on the Internal Systems Digital HR Application (Airtel Hive App).
- Implemented features using React Native for UI and functionality enhancement
- Integrated APIs and assisted in testing and deployment.

PROJECTS

Password Generator using Java
- Developed a Java program to generate random passwords based on user-selected criteria (uppercase, lowercase, numbers, symbols).
- Allowed users to specify password length and dynamically built a custom alphabet.
- Used random selection to generate secure passwords from the custom alphabet.
- Implemented a strength checker evaluating character types and length.
- Provided real-time feedback rating passwords as weak, medium, good, or great.
- Skills Used: Java, Randomization, User Input, String Manipulation, Control Structures.

Pizza Bill Generator using Java
- Built a console-based pizza ordering system in Java with interactive user prompts.
- Enabled selection of pizza size, toppings, extras (cheese, crust, delivery).
- Dynamically calculated total cost based on selections.
- Added discount feature for large orders and displayed an itemized bill.
- Skills Used: Java, OOP, User Input, Control Structures, Conditional Logic.
